

## What is outdoor lasergame?

Often people refer to outdoor lasergame as 'painless paintball', but those times are gone now Dupuis Laser Products BV introduces the Mantiz outdoor lasergame system. The Mantiz creates a lasergame experience which immerses the player into the game.

Outdoor lasergame is a real teambuilding activity; it is not only about shooting but also about good planning and sound strategy. Two or more teams duel each other on the battlefield: may the team with the best tactics win!

## About the Mantiz and the Centipod.

The founder of the company has years of experience in offering outdoor lasergame, which led to the development of the Mantiz lasergame system.

The Mantiz is the first system on the market not to replicate a firearm. The starting point in the development process was how we could offer a lasergun which didn't replicate a fire arm but still is tons of fun to play with; the Mantiz is the answer to that question.

Fun for both adults as kids and early teens.

The Mantiz can keep track of the players results and scoring via a wireless connection, when a player is in range of the base (a pc or laptop) it automatically transfers the scores.

With the Centipod you can add more excitement to the game. The game isn't just about skills, it is about the best team effort. The Centipod can act as a target, mine, VIP-box, respawn point or you can outfit one of the players with it to act as a medic box, ammo box or engineer box.

## I only want maintenance-free products.

We only want to offer maintenance free products as well, that is why we made the Mantiz sturdy, safe and durable. The casing of the Mantiz and the Centipod is made of glasfiber reinforced plastics, to ensure a sturdy maintenance free casing.

The battery of the Mantiz and Centipod has enough power to play for days in a row without having to recharge. There is no need to connect plugs to transfer the data stored during the game, all data is sent wireless to and from the computer.

The lack of unnecessary plugs and holes contributes to a sustainable and maintenance free product. This together with the self diagnostic system of the Mantiz and the Centipod insure that you have less errors meaning less downtime with the system.

## Rental Program

Dupuis Laser Products BV offers you different ways to help you entertain your customers. You can either buy a complete Mantiz lasergame system or you can rent a system for 2 years and after these 2 years you can decide to buy the system or continue to rent.

The advantages of renting a Mantiz lasergame system:

- Playing with a state of the art lasergame system that is way ahead of the competition
- Less investment needed to start an outdoor laser-game field
- 2 years full warranty on the internal parts
- Centipods adds excitement to your game

Contact us at +31 6 1214 23 51 or send an email to [rental@mantiz.nl](mailto:rental@mantiz.nl) and we will be glad to show you all the options.
